

Safety tips

During an explosive incident:

- Know your escape route
- Know where you are going
- Trust your judgment
- Don't announce you are leaving
- Keep necessary items close by

When preparing to leave:

- Have a safe place to stay
- Make a personalized safety plan with an advocate
- Open a saving account at a separate bank using a trusted friend's address and phone number
- NEVER fill out a change of address form; the postal service will verify your new address at your old address
- LEAVING IS THE MOST DANGEROUS TIME, plan, plan, plan and communicate those plans with someone you trust.

While living on your own:

- Upgrade your security system
- Revise your safety plan to accommodate your new life
- Use a cell phone only; house phones are easier to track
- Clear away brush and debris from around your house to avoid creating dark "hiding places"
- Talk to neighbors/landlords about your situation
- Familiarize yourself with your neighborhood so you can get to safety fast.

If you have a protective order:

- Keep a copy of your order with you at all times; store copies in your house, car, at work, and with child-care providers
- CALL THE POLICE if the order is violated!
- If you have moved to a new community, notify your local police that a protective order is in place. Have them keep a copy of the order on file.
- Have a P.O. Box address for mail and try to keep physical address off public forms.
- Have a solid safety plan. A protective order is only a piece of paper, plan, plan, plan.
